

# Harridan

## Matthew Good

The same old place you go  
where fear's so simple  
get on done what you're told  
gonna clip your wings Well my head gone out of time  
my hear like belladonna swims some plasma undermine  
gone and clipped my wings Say I'm the fool  
I wreck everything  
there's only one side of true  
gone and clipped my wings Well Roddy said Jack you angry?  
I said I done what I done to play alive  
I always done beat me down gladly  
I gone and clipped my wings  
Well I can't see you smile  
but this is just seconds in your whole life  
you know it's been a while  
but I'm here  
I'm right here
