

Because We Love You

[Juliana Hatfield](#)

Daddy dance with me
Too far gone to even speak
Neil Young on the radio
Four dead in Ohio Daddy are you asleep?
Your son's a mess
And your daughter's a freak
And when you hit the road
This time it's a heavy load We tried everything to get you back
Even sprung a junkie from rehab
I'll have another drink
If it makes you laugh
We'll try anything
Because we love you daddy Michael and me
A long long time ago
We were a family
And I don't want to let you go
This life is all we know
We tried everything
To get you to laugh
Even put a monkey on my back
