

# Take Your Last Breath

Izund

The more you pray for mercy  
The more you bleed  
I hear you scream but  
I know you only want more  
You still alive but so weak  
And I see in your eyes  
How you pray for your death  
Just smile and take your last breath  
Blood in your mouth  
Just smile and take your last breath  
Have no time to shout  
Just smile and take your last breath  
Your eyes are leaving their sockets  
Just smile and take your last breath
