

# Maybe

## Wax

Maybe just lately I'm lonely  
Maybe things at home not what they should be  
And maybe I notice the way you act around me  
But you, shouldn't take it too seriously

Maybe I called you but that doesn't mean  
That I really want you closer to me  
But maybe I knew we'd both end up here in this way  
You, you make it so easy to stray

Maybe I'm tempted but it ain't right  
Maybe I better say goodnight  
But maybe I'm human and passion's strong  
Maybe I can't stop what we've begun

Maybe there's trouble for me and my wife  
Maybe our coming here was unwise  
But maybe I see my reflection in your shining eyes  
You, you make it so easy to stay

Maybe I'm tempted but it ain't right  
Maybe I better say goodnight  
But maybe I'm human and passion's strong  
Maybe I can't stop what we've begun

Want you too much  
Yes, I want you too much  
Yes, I burn for your touch  
Ohhh  
Lookin' that way  
You make it too easy for me  
Ohhh  
To lose control
