Rhythmic Dreams

James

For a love you dream
A dreamer still
For you love a dream
A dreamer still
For you dream
A love too bad to meet
Where your song is all

The wait is still
And your song is of
Your rage will steal
I relax and hold your way to see
It's the falling dark beside the sea
It's a dream along the water scene
It's the light of that you're ever she
