

# Soon We'll Be Found

## Stanford Mixed Company

Come along it is the break of day  
Surely now, you'll have some things to say  
It's not the time for telling tales on me  
So come along, it won't be long 'til we return happy  
Shut your eyes, there are no lies in this world we call sleep  
Let's desert this day of hurt, tomorrow we'll be free  
Let's not fight, I'm tired, can't we just sleep tonight?  
Turn away, it's just there's nothing left here to say  
Turn around, I know we're lost but soon we'll be found  
Well, it's been rough but we'll be just fine  
Work it out, yeah, we'll survive  
You mustn't let a few bad times dictate  
So come along, it won't be long 'til we return happy  
Shut your eyes, there are no lies in this world we call sleep  
Let's desert this day of hurt, tomorrow we'll be free  
  
Let's not fight, I'm tired, can't we just sleep tonight?  
Turn away, it's just there's nothing left here to say  
Turn around, I know we're lost but soon we'll be found  
Let's not fight, I'm tired, can't we just sleep tonight?  
Don't turn away, it's just there's nothing left here to say  
Turn around, I know we're lost but soon we'll be found  
Let's not fight, I'm tired, can't we just sleep tonight?  
Turn away, it's just there's nothing left here to say  
Turn around, I know we're lost but soon we'll be found  
Let's not fight, I'm tired, can't we just sleep tonight?  
Turn away, it's just there's nothing left here to say  
Turn around, I know we're lost but soon we'll be found  
Let's not fight, I'm tired, can't we just sleep tonight?  
Turn away, it's just there's nothing left here to say  
Turn around, I know we're lost but soon we'll be found  
Let's not fight
