Coincidence

I Am Kloot

Love may have just come to bury me
But I'm not afraid of what I see
I'm not afraid of the worldTime has gathered us here by coincidence
That's why what I say doesn't make any senseLife may have just come to bury me
But I'm not afraid of what I see
I'm not afraid of the worldWe, we're all gathered here by coincidence
That's why what we say doesn't make any sense
