

# Coincidence

## I Am Kloot

Love may have just come to bury me  
But I'm not afraid of what I see  
I'm not afraid of the worldTime has gathered us here by coincidence  
That's why what I say doesn't make any senseLife may have just come to bury me  
But I'm not afraid of what I see  
I'm not afraid of the worldWe, we're all gathered here by coincidence  
That's why what we say doesn't make any sense
