Weekend Love

Dwele

"Weekend Love"
Last night somebody told me that you would be in town
I opened up my eyes and you were staring me down
I often think about the last times we spent together
Ummm hmmmmm
And sometimes
When no one was around and its just me
You serve a special parted memory
[x2:]It's our dream to see
(oh baby)
You here with me
(I miss you)
After all this time
You're still fine
(Girl let's chill)
For the Weekend
(For the Weekend babe, I'd like to chill for the weekend)
This morning
I awake to find you next to me
Holding a long convesation over a green tea baby
we speak about the love before
Night before
And its killing me
(no way)
I Gotta let you leave
(Although)

But at least we know
That We made another memory
Of the Way you
Let me love you
Hold You
You've got me so in love
[Chorus:]It's our dream to see
You here with me
(I miss you)
After all this time
(baby)
You're still fine

For the Weekend
(you and I)
I thank the man above
For my Weekend Love
[x2:]It's our dream to see
You here with me
(can you believe)
After all this time
You're still fine
(on my mind)
For the Weekend
(So let's do you and me for the Week-end)
Baby that would be alright
