Out Of My Mind

Lasgo

Ive been waiting for tonight
You give me fever deep inside
Its you and me together
I feel it in my soul
We can last forever
You just make me lose controlI cant get you out of my mind
Its silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, loveI cant get you out of my mind
Its silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, loveWhen youre dancing close to me
Its for everyone to see
Its you and me together
I feel it in my soul
We can last forever
You just make me lose controlYou and me
You and me
You and me
Its you and me together
I feel it in my soul
We can last forever
You just make me lose controlI cant get you out of my mind
Its silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, loveI cant get you out of my mind
Its silly but I think about you all the time
All you have to do is give me a sign
To make me fall n love, love, love
