

Give Me You

Brandy

Oh yeah is there a problem
That you can't solve? You're all alone
And no one wants to get involved
Oh yeah But I have a friend, oh you know I do
He'll always be around, be around
And he'll never leave you yeah
He'll never let you down All he said
He wants from you
All he said
You have to do
Give me you
All you have to do is All he said
He wants from you
All he said
You have to do
Give me you You're always saying
"Love is such a heavy burden"
You need someone in your life
Who will give more love than hurting He'll never forsake you
He will always be around, be around
And he'll never leave you, no he won't
He will never let you down All he said
He wants from you
All he said
You have to do
Give me you
All you have to do is All he said
He wants from you
All he said
You have to do
Give me you You can call him in the morning
You can call him in the noon day
You can call him in the evening
Give me you You can call him in the morning
You can call him in the noon day
You can call him in the evening
Give me you Give me you
Give me you
Give me you
