

# Trying to Find a Home

## Tindersticks

Still trying to find a reason  
Still trying to find a home  
Just some place to spread my things in  
A place from where I can run  
Came from so far so silent  
You saw the stars above  
Your smiling faces cheer up  
Take what we never had  
The lowered sun  
Brings another memory  
I held in my head so I can see  
Every color you were wearing  
Every color in your eyes  
Came from far so silent  
You saw the stars above  
Your smiling faces cheer up  
Take what we never had  
And I hear you whisper  
"Where are you"  
And I see my hand upon your skin  
I can feel me searching for you  
Still trying to find a home  
And there'll come a time  
When everything's so tough  
Everything's apart  
Trying to find a home  
We're so near, we're so apart
