

Winter Time

George Baker Selection

Wintertime is coming and the snow is falling down.
Looking out my window I can see the silver ground.
A picture on the wall to people have their summer free.
Darling if you're only here with me.

Wintertime is coming as the children in the snow.
Sea-gulls in the sky, a winterstorm is gonna blow.
If the time turns back a while, I'll happy we could be.
Darling if you're only here with me.

I wake up in the morning and my room is filled with light.
Everything is silent, something happened in the night.
I open up my window and I feel a summer breeze.
Now I know you're very soon with me.
You're very soon with me, or not with me.
