

# Uncanny

## Carter Tutti

Airports to Amsterdam  
There's nothing that we can do now  
I'm convinced, oh, that you're right  
You're right where you belong  
Beside me, to remind me Did you ever think this far behind me  
You would see the world for what it was  
And who we really were  
Oh, they love us, American boys Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world Trains to Tokyo, staring out windows  
A place we've never been  
While soundtracks play in backgrounds  
To the stories of our lives Non-fiction, oh envision  
If we never met and what we missed  
And never really learned, Pacific Standard Time  
Oh, they love those American boys Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by Anywhere, say anywhere  
As long as I'm with you

Anything, ask anything  
We'll watch the world
