Pain inside

Bruks Production

Realize that I've lost control
Impulses keep flashing through my head
I'm on the outsideTake up all my life inside
Why would I let them make up my mind
And be mislead?
Go ahead make up your mind
I have had enough of who they want
Leave me aloneThis pain inside I can't understand
This hate in life that will not go awayGo ahead make up your mind
I have had enough of who they want
Leave me alone
Realize that I've lost control
Impulses keep flashing through my head
I'm on the outsideThis pain inside I can't understand
This hate in life that will not go away
This pain inside I can not live with it
It feels like no one really understandsIt's always killing me the problems I face daily
It's always things that I have always take in vainI'm sick of you judging me
I'm sick of you judging me
I'm sick of you judging meThis pain inside I can't understand
This hate in life that will not go away
This pain inside I can not live with it
It feels like no one really understandsIt's always killing me the problems I face daily
