Politicians

The Exploited

Left this country in a mess No one is guilty they're innocent of theft Stabbed us in the back and stole our pride They put you on the dole que they took you for a ride I HATE YOU HATE WE ALL HATE POLITICIANS Financed murder from the tax you paid They never listened to a word you said Left us in poverty they left us in pain The govt. are wankers and Maggie's insane Now is the time to stand up for your rights Unemployed unite and get ready for the fight The army the police - politicians too When they see you coming in they just won't have a clue
