Gay Goth Scene

The Hidden Cameras

(VERSE x2)
We don't want no gay goth scene in this house/
And we don't want no gorgeous teen in your mouth/
And we don't like no gay goth scenes/
It's teenage hell/
And We don't want no gay goth scene in this house/(CHORUS x2)
That boy takes away your self-esteem/
He's been playing with your mind and you've been talking in your sleep/
If you compromise any more than this you will be put on trial and forced to reconvert/
We conditioned you first/
We conditioned you first/(VERSE)
