

# Manhattan

## Kings of Leon

I like to dance all night, summons the day  
But that's how I play, yeah that's how I play  
I said who are you? Don't matter who you are  
So we dance all night and dance all day I say, I say We're gonna fuel the fire, gonna stoke it up  
We're gonna sip this wine and pass the cup  
Who needs avenues, who needs reservoirs  
Gonna show this town how to kiss these stars I say, I say We're gonna hunt to kill, gonna skin the hide  
A yelp and scream and away I ride  
And every drop that spills on every plot of ground  
It's all for you for what you found I say, I say  
I say, I say It's gonna take your hand  
And gonna drive you home  
It's gonna keep on, keep on, keep on  
And then forever roam
