

# Hearts Beat Loud (Single)

[Clinton Washington](#)

I see you over there  
With your long black hair and deep blue pair  
Of eyes You do it every time  
All these guys with the same damn line PRE-CHORUS 1  
I'm looking out into the crowd  
With the punch of electro sound  
Oh I've lost sense of everything around CHORUS 1  
Forget about where I am  
And the world I'm livin' in  
Through the fog and all the people  
There's only you, only you Let our hearts beat louder, let our hearts beat louder, let our let our hearts beat loud,  
beat loud, oh beat loud  
Let our hearts be louder, let our hearts be louder, let our hearts beat loud, beat loud, oh be loud Gravity's force,  
pulling me in  
We go back and forth PRE-CHORUS 2 Chorus 2 Together, we are one  
My hand on my chest, my hand on your heart PRE-CHORUS 3 CHORUS
