

I Like New (feat. Yg)

Chanel West Coast

I ain't gotta talk about bitches keep it quiet
Yeah I move in silence
I can hear them talking and they talking say it louder
Can hear them from my tower, smoking on some sour
Let these haters talking only talking hater
Bottom in my Tesla tryin pull my dress up
But I ain't with that old back seat been done shit
Chanel will run shit,
Kept my crew munchin
Certified shit, bad bitches in motion
I like new, I like new Stop it, your clothes Hot Topic
Your flow's hot garbage
I've had it keep it quiet but sometimes I gotta drop it
fuck ur hidden motives I'm a sip mimosas
Chilling in the villa in Anguilla getting loaded
What's the commotion, new shit is my motion
Sick of all the whack ass music they promoting
When we just hoping, waiting for the moment
But I'm a stay focus, hope you notice that I like new, I like new
I need a new bitch, I need a new

With a new ass and some new tits
So I can use her shit
