

Listen

Palm Trees & Power Lines

I won't let you screw me over
This time there's no hard feelings or any closure
(I wanna say) It's a bad dream for you and me
(I wanna know) Is it really that hard to see?
(So tell me) Just tell me that you'll really learn to
Listen closely That's when I say that everything is feeling fine
But deep inside, I wanna go
The hardest thing is knowing what I want in life
One thing's for sure, I wanna go
Every time I speak up for myself, you don't want to
Be a part of it and every time you hide inside your shell
But you'll crack at any blind moment, you say
That you will make a change for the better
But I know you'll be writing your last letter That's when I say that everything is feeling fine
But deep inside, I wanna go
The hardest thing is knowing what I want in life
One thing's for sure, I wanna go Listen
To everything I say to you
Listen To everything I say
