We All Float Down Here

Four Year Strong

Peel your skin back to show what you're made of
Too bad you never did have the guts to know where your heart should go

Sit back and twiddle your fingers
Hope that no one else figures out the way that you play the game

Starved for attention that alone wouldnâ€™t fill you up
So you feed on the weak and you drink up their blood, but someday they'll turn on you

I'll watch the world go up in flames
I'll strike the match to help you do the same
The time is now, tick tock, it's ticking away
So now I'm here to rain on your parade

So take a look in the mirror
"Who's that?"
Someone in fear of running out of good places to hide

Crawl out from the dark
Feel the light hit your face
It will never be as bright as the spotlight you crave
But watch out before it burns you

I'll watch the world go up in flames
I'll strike the match to help you do the same
The time is now, tick tock, it's ticking away
So now I'm here to rain on your parade

The time is now,
Tick tock tick tock, it's ticking away
Tick tock tick tock, it's ticking away

I'll watch the world go up in flames
I'll strike the match to help you do the same
The time is now, it's ticking away
So now I'm here to rain on your parade
