

# Wind Up Here

## Ugly Friend

I've rolled the dice  
I've rolled my life  
A dog out in the rain  
Up against a viscous pack of wolves  
I've always played the odds  
Way back in school  
Trouble led each day, Times were cruel

Conscious so unclear  
Drag me from these fears  
How the hell We'd Wind up here

I wore a string of broken hearts  
Up and down my sleeve  
Nameless night stupefied  
From the bottles that we drink  
I wish the sun would sleep some more  
She blinds me when I wake  
That clock on the wall  
Still ticking to my grave

Conscious so unclear  
Drag me from these fears  
How the hell We'd Wind up here

Lately I've been a mess lights out  
Something along the way I never found  
Clouds rolling in dark and loud  
One more storm to ride out....

Conscious so unclear  
Drag me from these fears  
How the hell We'd Wind up here

---
