

# black bugs (album version)

## Regurgitator

i got killed by black bugs on video game  
and then although to myself it doesn't mean too much  
i keep dying and dying over and over again  
and now i think i'm alive so i'll just pretend what's at the end? (x2)  
what's at the end of satan's rainbow? what's at the end? (x2)  
what's at the end of satan's rainbow? stared at the tv too long now and i'm not the same  
i've got to remind myself that it's just a game  
it's getting harder and harder to get to sleep at night  
i think i'll let them shoot me so that i can die what's at the end? (x2)  
what's at the end of satan's rainbow? what's at the end? (x2)  
what's at the end of satan's rainbow? what's at the end? (x2)  
what's at the end of satan's rainbow? what's at the end? (x2)  
what's at the end of satan's rainbow? what's at the end?  
tell me is this the end?  
what's at the end of satan's rainbow? what's at the end? (x2)  
what's at the end of satan's rainbow? what's at the end? (x6)
