

# The Colour Of Blue

## S Club 7

Oh yeah hey  
I have always wondered  
How it can be done, to pick the one  
Who's gonna be my lover for life, my baby  
Be there to hold me through the night  
When it happens you can see it in his eyes  
They tell no lies, brighter than the sky in July, my baby  
Cooler than anyone I've known The color of blue reminds me of you  
I've never see grey, green, black you're true  
The color of blue no other will do  
In my heart I only feel  
The color of blue I say, "If you ever felt the way I do, then lucky you"  
So never go for less than a perfect thing  
Seek and then hopefully you'll find  
There's a rhythm and a rhyme  
You've gotta find it then you'll see  
'Cos baby, we can go on all night, just dancing  
Doin' it till the break of dawn The color of blue reminds me of you  
I've never see grey, green, black you're true  
The color of blue no other will do  
In my heart I only feel  
The color of blue In the rainbow I can see  
Colors of misbelief  
There is only one for me  
And it will forever be The color of blue reminds me of you  
I've never see grey, green, black you're true  
The color of blue no other will do  
In my heart I only feel  
The color of blue The color of blue reminds me of you  
I've never see grey, green, black you're true  
The color of blue no other will do in my heart
