Chosen

Jeris Cole

-Verse 1-

Take a walk on the boulevard
Find your place among the stars
Pick your spot, and set up
Do what only you can do
I saw the eyes they well up
And all the smiles come out of hiding
Embrace the love, and fill your cup
With anything and everything you find, he's hiding
Deep within your soul
It's time they know
That

-Chorus 1-

You've been chosen
To do great things
You are more than
What you've been revealing
Let it out and let it shine
Know that it's only a matter of time
Till they know as well as you
No

-Verse 2-

Though you may not have the loudest voice
But you can sing above the noise
The flashing the lights, the endless torch
Take all that you hearing and make it yours
Keep it in your soul
Never let it go
No

-Chorus 2-

You've been chosen
To do great things
You are more than

What you've been revealing
Let it out and let it shine
Know that it's only a matter of time
Till they know as well as you
No

Middle 8

-Chorus 3-

You've been chosen
To do great things
You are more than
What you've been revealing
Let it out and let it shine
Know that it's only a matter of time
Till they know as well as you
No
Oh
Oh
Oh
You've been chosen
Oh
Oh
Oh
You've been chosen
