

Standing Still

Ruth

Lately Im thinking that I dont feel quite like myself
And honestly I feel like Ive turned into somebody else
Cause You could change me like nothing else ever could
You could love me like no one else ever wouldThe world keeps moving, I just keep standing still
Look at all Youre doing, nothing could fill my heart
The world keeps moving and I just keep standing still
Look at all Youre doing, nothing could fill my heart
Like You do, like You do, oh, like You doWhen You uncover my eyes, I see You plain as daylight
And Youre working all around me, creation speaks so loudly
Cause You could change me like nothing else ever could
You could love me like no one else ever wouldThe world keeps moving and I just keep standing still
Look at all Youre doing, nothing could fill my heart
The world keeps moving and I just keep standing still
Look at all Youre doing, nothing could fill my heart
Like You do, like You do, oh, like You doAnd they cant love me like You do
There aint nobody quite like You
And they cant love me, theres nobodyThe world keeps moving and I just keep standing still
Look at all Youre doing, nothing could fill my heart
The world keeps moving and I just keep standing still
Look at all Youre doing, nothing could fill my heart
