Overboard

Matthew

monsters on the shore are getting nearer
smoke and scream and fire
i don't remember when infection came into the healer
voices in my head say it's now or never
overboard...let me fall from the death and slumber
just pretend you're sailing, safely...throw me overboard
zombie heads on cold, plastic shoulders
faces only hide the brooding fear
overboard...let me fall...to the waters...catch me
come into me...floating, still...and safer, overboard
we're all so far away
we lie beneath the stars
no one ever told you...you're free
overboard...let me fall...from the death and slumber...
just pretend you'r sailing safely...
throw me overboard...
let me fall...to the waters...
catch me...come into me...
floating, still...and safer...
overboard
