Cold Virginia Night

Ronnie Bowman

When I first met her, it was a sunny spring time morn
Our love grew like the flowers on the mountain
And it felt like then, our love would never end
Til that cold Virginia night when Jenny left me

It was a full moon on a cold Virginia night
When Jenny left me I could not believe
Her frostbitten heart would tear my whole world apart
It was a cold Virginia night when Jenny left me

Our love changed with the seasons,
It got hot like the summer wind,
And it blew me away into the autumn,
And like the leaves that fell, our love shot to hell
On That cold Virginia night when Jenny left me

It was a full moon on a cold Virginia night
When Jenny left me I could not believe
Her frostbitten heart would tear my whole world apart
It was a cold Virginia night when Jenny left me

It was a full moon on a cold Virginia night
When Jenny left me I could not believe
Her frostbitten heart would tear my whole world apart
It was a cold Virginia night when Jenny left me

Her frostbitten heart just tore my whole world apart
It was a cold Virginia night when Jenny left me
