Catholic in the Morning...Satanist at Night

Powerwolf

All we pray, alone we can't decide
Catholic in the morning
Satanist at nightInvocate the crucified
To hell he went by testament
Onward into war we ride
We raise the cross, the sacramentIn fire born, my soul is now divided... (tonight!)
My mind is torn, it cannot be decided nowAll we pray, alone we can't decide
Catholic in the morning
Satanist at nightAgnus totus
Deus diabolu
Cantus nocturnus
Infernum aeternus
HallelujahLoyal side by side we stand
With blood we run the war routine
All we wait for your command
The son of God
The NazareneHail the storm, the altar is divided... (tonight!)
The bible torn it cannot be decided nowAgnus totus
Deus diabolu
Cantus nocturnus
Infernum aeternus
Hallelujah(Yes!) Catholic! (No!) Catholic!
(Yes!) Catholic! (No!) Satanist!Warriors in the holy fight
And no, we need no therapist
Celebrate the wolf tonight
And proud we raise the metal fistI heard the sound, and now I am enlightened... (tonight!)
My god is found, for all I need in life is loudRaise your horns
The volume to the right
Heavy in the morning
Metal in the nightAll we pray, for metal we will die
Metal in the morning
Metal in the night
