

This Is Usually The Part Where People Scream

Alesana

You'll beat me? Bring it on, bring it on
You're gonna save the day? Bring it on, bring it on
You ready? Bring it on
I'll show you another thing or two
You may think you're clever but you're not
You better get the coffins out
Trust me kid that's where you're sleeping tonight
There's no guarantee we'll get out alive
Stop your whining, let's get busy
Baby it's time to lock and load
Stop your whining, let's get busy
Welcome to the show
It's a story that you've heard a thousand times
So take a seat and get lost with me
This tale will never stop being told
Welcome to the show
It's a chance to save the world or lose the girl
Let's save the world
Heroes will save the day
You may think you've won
But I promise you it's not over
You may think you've won
But I promise you it's not over
This could be our last chance to finally rise up
So here we stand and here we will fight
None of us shall run from anyone
The storms are gathering
There's no guarantee we'll get out of alive
Stop your whining, let's get busy
We have to rise above and fight
We'll be heroes
Welcome to the show
It's a story that you've heard a thousand times
So take a seat and get lost with me
This tale will never stop being told
Welcome to the show
It's a chance to save the world or lose the girl
Let's save the world
Heroes will save the day

This is the part where you are supposed to scream
This is the part where you are supposed to scream
This is the part where you are supposed to scream
 When you scream we'll be heroes
 Welcome to the show
It's a story that you've heard a thousand times
 So take a seat and get lost with me
 This tale will never stop being told
 Welcome to the show
It's a chance to save the world or lose the girl
 Let's save the world
 Heroes will always save the day
 Let's save the world
 Heroes will save the day
 Let's save the world
 Heroes will always save the day
