Breathe In, Breathe Out

Fulton Lights

Do you ever wanna run away?
Feel like every day is not your day
Do you ever find yourself out
In the cold no were to go
If the world has ever cut you deep
If the scars never seem to heal
If the emptiness is way too much for you
All you can do
Just breathe in, breathe out
That's a moment in your life
Breathe in, breathe out
It's a wonderful night
No matter where the seasons fall
No matter how the dice will roll

In the end the here and now is all we have
Don't look back
Just breathe, in breathe out
That's a moment in your life
Breathe in, breathe out
It's a wonderful night
A hundred million times
A hundred million times
Just breathe in, breathe out
That's a moment in your life
Breathe in, breathe out
It's a wonderful night
It's a wonderful night
