Never Run Out Of Love

Cheap Trick

I will never run out of love for you
I'll never run out of loveMidnight, don't seem right
I lie awake just wonderin' about you
Wound up much too tight
Can't think about livin' without you
The day you put your spell on me
I guess I was the last to know
So please remember before you goThat I will never run out of love for you
I'll never run out of love
I will never run out of love for you
Got more than enough, more than enough
No, I will never run out of loveFor so long, deep and strong
Love flowed mighty as a river
Long road, heavy load
Hard times couldn't keep us apart
Never thought you would break the promise, ohh no
Now it seems there's a part of me that just can't let you go
So please remember that you can come back home'Cause I will never run out of love for you
I'll never run out of love
I will never run out of love for you
Got more than enough, more than enough
No, I will never run out of loveNo, no baby, don't you leave me, no
No, no baby, don't go
No, no baby, if you run away
I still hope you know
I need you so
I can't take no moreI will never run out of love for you
I'll never run out of love
I will never run out of love for you
Got more than enough, more than enough
No I will never run out of love for you
I'll never run out of love for youNo, I will never run out of love for you
I'll never run out of love
I will never run out of love for you
Got more than enough, more than enough
No, I will never run out of love for you
Oh baby please, don't go
No, I'll never run out of love for youI'll never run out of love for you
I'll never run out of love

I will never run out of love for you
I'll never run out, never run out
No, I will never run out of love for you
I'll never run out of love for you
