Microscope

Styrofoam

If you put my heart under a microscope
you probably gonna wonder
why it's in such a critical condition
and if it scares you of to look at my horoscope
I'm not gonna blame you
I'm not gonna wonder
I am holding on to someone i can't hold no more
oh and sadly i've been here before
I can't let go no
I am reaching out for someone
I can't reach no more
oh it feels like my heart is nailed to the floor
oh yeah mmh mmh
I guess i've sacrifices everything for my dreams
and now it's completely out of control
things are not at all as they seem
but it is hard to navigate in a chaotic mind
it's easier to ask for forgiveness
and for permission
I am holding on to someone
I can't hold no more
oh and sadly I've been here before
I can't let go no
I am reaching out for someone
I can't reach no more
oh it feels like my heart is nailed to the floor
oh yeah oh yeah oh yeah mmh mmh
if you put my heart under a microscope
you probably gonna wonder
why it's in such a critical condition
