

# Hutton's Great Heat Engine

## Botch

we'll never see them again  
i won't even try to run  
because it's kinda pointless  
here comes the sea, the sea of red  
it's hard to believe that our end has come  
oh she still erupts  
it's hard to believe that something so thick  
is so quick  
but it buries us by the hundreds  
it's so quiet here  
and the heat is my new friend
