Endless

Cory Asbury

Before the start, beyond the end
As far as east is from the west
Measureless
From open sky, to ocean depths
More than man can comprehend
MeasurelessYour love is without limit
Your love is constant
Your love goes on forever
Your love is endless
Your love is overwhelming
I can't contain it
Your love, Your love
Your love is endless
Oh how vast, and oh how wide
Far beyond all space and time
MeasurelessYour love is without limit
Your love is constant
Your love goes on forever
Your love is endless
Your love is overwhelming
I can't contain it
Your love, Your love
Your love is endlessNo death, no height
No fear, no shame, no lie
I am convinced, even the grave
Could never separate
No death, no height
No fear, no shame, no lie
I am convinced, even the grave
Could never separate
Your love is without limit
Your love is constant
Your love goes on forever
Your love is endless
Your love is overwhelming
I can't contain it
Your love, Your love
Your love is endless
Your love is without limit

Your love is constant
Your love goes on forever
Your love is endless
Your love is overwhelming
I can't contain it
Your love, Your love
Your love is endless
