Speakers in the grill and in the door panels
Detachable steering wheel case they try and steal' light you up like a candle with my Springfield
Rifle for rifle, built for survival, it's wild, and homo-sidle out here in the bay, with 90's and SK's, we living the last days, they calling the wrong plays, rolling over in their graves ancestors used to be slaves
I try to trust saved folks, love em' to death, but they be the ones that stir up the most mess, I ask em how they

doin and they holler out player, pack an air gun like their better than the next

Seemed like a riot the way the music had use actin' (BITCH!)
