Pastimes & Lifestyles

Dogs Die In Hot Cars

The case for the catwalk
Clues are too cool for the kids
The importance of keeping your clothes on
And taking your mind off of the thingsOh, so many buildings, museums and churches, historical houses
Eat in or take away anything that fits in your mouth
Open top buses are winding round things of general interest
I'm interested in something, the direction you take
If you want to get out, out, out, outEvery night I am woken by Police
Put this city in disrepute if it means I can sleepThe case for the catwalk
Clues are too cool for the kids
The importance of keeping your clothes on
And taking your mind off of the thingsThe casual and the clean cut
Find me somewhere I can stay
I'm looking for pastimes and lifestyles
To keep my attention at bayFields are followed by fields
The village store opens whenever it likes
I drive behind tractors that
Drive behind families on bikesThe neighborhood watch
Or is it that the neighborhood likes to pry
Some try but I just want to know the direction
You have got to take to get outEvery morning I'm woken by sheep
Let the foot and the mouth prevail if it means I can sleepThe case for the catwalk
Clues are too cool for the kids
The importance of keeping your clothes on
And taking your mind off of the thingsThe casual and the clean cut
Find me somewhere I can stay
I'm looking for pastimes and lifestyles
To keep my attention at bayPlace and every place, every person
The grass turns out to be Astro-Turf
And I just want to sleepThe case for the catwalk
Clues are too cool for the kids
The importance of keeping your clothes on
And taking your mind off of the thingsThe casual and the clean cut
Find me somewhere I can stay
I'm looking for pastimes and lifestyles
To keep my attention at bay
