

Light It Up

Rev Theory

Hey, I want a taste
You're a black heart devil
And I can't explain why you wait for your face
You're a hotel lover on the back and till the disgrace Every night she seems to change her name
Does it matter who you really are?
Back room where we sip champagne
I can never seem to get out enough I ignite so hold on
'Cuz we're about to light it up
It's on tonight so hold on
'Cuz we're about to, about to light it up Hey, there's no mistake
'Cuz I'm a hard time sinner with a bullet to waste
And I'll break these chains and hit the club house
Running with the money to play I got the whiskey running through my veins
So cut me open, add the fuel to the fire
Your daddy tells you not to play my game
But what I'm selling baby she can't deny I ignite so hold on
'Cuz we're about to light it up
It's on tonight so hold on
'Cuz we're about to
I ignite so hold on
'Cuz we're about to light it up It keeps calling my name
I can't send it away
You got to pay it to play, yeah Your daddy tells you not to play my game
But what I'm selling baby she can't deny I ignite so hold on
'Cuz we're about to light it up
It's on tonight so hold on
'Cuz we're about to I ignite so hold on
'Cuz we're about to light it up
It's on tonight so hold on
'Cuz we're about to light it up Yeah, so hold on
'Cuz we're about to light it up, it up, it up
So hold on
'Cuz we're about to, about to light it up
