

My Life As A Circus Clown

Matthew Good Band

The lights go down, the knife man sleeps

And I wonder where you are

Trapped inside a burning mini

And I wonder where you are

You never used a safety net

I never thought that far ahead

I wonder if you think of me

While I wonder where you are

This time I lose but I know

One day I'll win

One day I'll win

This time I lose but I know

One day I'll win

One day I'll win

The new girl does your show at eight

And I wonder where you are

The human cannon hesitates

And I wonder where you are

If you can make me disappear a little

Can you make me disappear a lot?

Well, I wonder if you think of me

While I wonder if you're not

This time I lose but I know

One day I'll win

One day I'll win

This time I lose but I know

One day I'll win

One day I'll win, I will

The lights go down, the knife man dreams

Of missing, of missing, of missing
