

# Twist

## Oh Land

Set me free from the prison of the past  
Dont trap in your story  
You will fall from the shaggy you stand  
On guard and protect your dynasty  
To fend the fall intruders  
Its the sign of the fear that you bring  
You twist dismiss my memory  
Now lets twist things into a harmony  
You twist dismiss my memory  
So lets twist things into a harmony  
Assembly line is diversity of threat  
Breaking all the borders  
I dont think this is as far as we can get  
Control a chance to prove your power  
Hope seems so distant  
When you think were all cowards  
You twist dismiss my memory  
Now lets twist things into a harmony  
You twist dismiss my memory  
So lets twist things into a harmony  
You twist dismiss my memory  
Now lets twist things into a harmony  
You twist dismiss my memory  
So lets twist things into a harmony  
Get me in assembly line, control, control  
Listen the listen me in power, tick, tick  
Breaking were all, breaking were all  
Get, get, control  
You twist dismiss my memory  
Now lets twist things into a harmony  
You twist dismiss my memory  
So lets twist things into a harmony.
