

Christmas Tonight (With Hillary Scott)

Dave Barnes

Christmas tree
Baby, baby, you and me
We untangle pines
And hung some memories
Suit and tie
Places to be tonight
Girl, you gotta know I don't wanna go
It's so toasty warm inside
Baby, let's just light the fire
But I got a new dress
Doesn't look real safe to drive
You bought me that necklace
We won't know what we're missing
If we don't go out for Christmas tonight
So much snow
The wind you know is bound to blow
And mess up your hair, makeup everywhere
Let's don't go
It's too late, whatever would we say?
We shouldn't break our plans
Let down our friends
Baby, you best behave
Baby, let's just light the fire
What about the city?
Doesn't look so safe to drive
But the drive's so pretty
We won't know what we're missing
If we don't go out for Christmas tonight
You lookin' too good to share
And maybe our friends won't care
Baby, we always got next year
Baby, let's just light the fire
I'll get the matches
Doesn't look real safe to drive
I'll grab some glasses
We won't know what we're missing
If we don't go out for Christmas
Maybe we should stay in, baby
Won't know what we're missing
If we don't go out for Christmas tonight
