

Jungle Work

Warren Zevon

Lear jet S.W.A.T. team
On a midnight run
With the M16
And the Ingram gun We parachute in
We parachute out
"Death from above"
We're screaming now Where the pay is good
And the risk is high
It's understood
We'll do or die Sten gun in hand
Where the gun is law
From Ovamboland
To Nicaragua Strength and muscle and jungle work
Strength and muscle and jungle work
Strength and muscle and jungle work
Strength and muscle and jungle work Three young men
In a Russian truck
With a little M10
Sent 'em running to the huts A few young men
The few who dare
To battle in hell
Le Mercenaire! Strength and muscle and jungle work
Strength and muscle and jungle work
Strength and muscle and jungle work
Strength and muscle and jungle work
Strength and muscle and jungle work
Strength and muscle and jungle work
