

Written in the Stars

The Girl and The Dreamcatcher

[The Girl]

You can feel it

I can feel it

Like we're both awake and dreaming

There's nowhere else we'd rather be

We're making our own history

Cause we're a page turner

Heart warmer, science-fiction fantasy

We can go to the moon and back

To moon and back

Without ever leaving[Together]

We're right here and we're gonna write the story

Written in stars like graffiti, can't ignore it

Light years and they'll see the comets falling

This is the moment where it all began[Together]

They'll see it written in the stars

They'll see it written in the stars

They'll see it written in the stars

We were here

We were here[Verse 2: The Girl (The Dreamcatcher)]

Every single hero has to start out looking like me and you

So never mind excuses we can do this if we really want to

(We can go all around the world

All around the world)

And we're not even dreaming[Together]

We're right here and we're gonna write the story

Written in stars like graffiti, can't ignore it

Light years and they'll see the comets falling

This is the moment where it all began[Together]

They'll see it written in the stars

They'll see it written in the stars

They'll see it written in the stars

We were here

We were here[Bridge: Together (The Girl)]

(You can feel it)

We can go to the moon and back

To the moon and back with out ever leaving

We're right here, right here

Written in stars, stars

We're right here
Written in the stars, stars[Together]
We're right here and we're gonna write the story
Written in stars like graffiti, can't ignore it
Light years and they'll see the comets falling
This is the moment where it all began[Together]
They'll see it written in the stars
They'll see it written in the stars
They'll see it written in the stars
We were here
We were here
