

# All My Life

## Hoops

You never end up running  
But it's never out of time  
You think you really got me  
But you don't, no you don't I see you all around here  
But never ask why  
You're dragging me along  
And it feels like I'm wasting All my life  
It keeps getting away from me  
All that time  
It'll never come back to me  
I'm so tired of running  
I can't slow down  
You think you really get to me  
But you don't, no you don't I see you all around here  
But never ask why  
I'm dragging me along  
And it feels like I'm wasting  
x 2  
All my life  
It keeps getting away from me  
All that time  
It'll never come back to me
