

Twenty-Something (The Los Evo Jedis Remix)

Pet Shop Boys

Twenty-Something
Good as new
Expectations
Got a few
Find an issue
Get ahead
Got it sorted
Like you said
You're twenty-something
Join the queueTwenty-something
In the mix
Always that
Ironic Twist
Got a start-up
Good to go
When the money
Starts to flow
Oh, twenty-something
Up to tricksThat's how you are
Or have to be
In a decadent city
At a time of greed
You can make believe
That it's all you need
Sometimes it's hard
Day to day
To pay your wayTwenty-something
Quite a catch
Think you'll ever
Meet your match?
You've always been somewhat choosy
but you'll love her for the length
Of a good movie
Oh, twenty-something
Call her backThat's how you are
Or have to be
In a decadent city
At a time of greed
You can make believe

That it's all you need
Take your smartphone
And make your way home
On your own Twenty-Something
Hard to beat
Check your reflection
Walking down the street
Thirty's calling
Round the bend
Will your ideas
Ever trend?
Oh, twenty-something
Feel the heat Find an issue
Get ahead
Got it sorted
Like you said
You're twenty-something
And so to bed That's how you are
Or have to be
In a decadent city
At a time of greed
You can make believe
That it's all you need
Sometimes it's hard
Day to day
To pay your way
