

First Time

Macy Gray

Allow me love I'm a woman of pristine intuition
When I first saw you I knew I'd be loving you
What I didn't for see, is you'd be all I need
See I thought I'd been in love
But now what I'm sure of is, I've never felt this way
It's the first time, for me
It's the first time, I feel true love
and what it really means, yeh
It's the first time its the first time for me
And I tell friends about the love I'm in
and they want me to describe it
I say there are no words but I will try it
It's like beyond the moon and its all I do
And it knocks me off my feet
And there are moments in the day, that I cant breath
It's the first time, for me
It's the first time, I feel
True love And what it really means
Yeh, Its the first time its the first time for me
