Let's Go Higher

[Johnny Reid](#)

You know me
Better than I know myself
You see me
Different than anybody else
Just when I feel I've reached the moon
You look at me and say, "Let's go higher, let's go higher"
You say, "Baby, don't look down.
Look at what we've found and let's go higher,
Let's go higher"You show me
There is always something more
You take me
Where I've never been before
Just when I feel I've reached the moon
You look at me and say, "Let's go higher, let's go higher"
You say, "Baby, don't look down.
Look at what we've found and let's go higher,
Let's go higher"You make me believe
Love is all we'll ever need
Just when I feel I've reached the moon
You look at me and say, "Let's go higher, let's go higher"
You say, "Baby, don't look down.
Look at what we've found and let's go higher,
Let's go higher"Just when I feel I've reached the moon
You look at me and say, "Let's go higher, let's go higher"
You say, "Baby, don't look down.
Look at what we've found and let's go higher,
Let's go higher"
