

# Right About Now

[JT Hodges](#)

She's steppin' out of a steamin' shower  
Hair drippin' wet with a towel around her  
She's puttin' on her mango lotion  
She'll set it down with the top left open, yea I know her well  
She's watchin' that fire from the livin' room couch  
Sippin' that red right about now She looks like a woman who's lost in love tonight  
She's reachin' for someone and I know what he feels like  
Right about now, right about now, right about now  
I know I'm right about now, right about now If I know her she's drawin' him in  
Drivin' him wild gettin' under his skin, yea  
And if he's like me it tears him apart  
When she whispers his name in the dark  
I've gotta get her out of my head somehow  
I hate the fact I'm right about now She looks like a woman who's lost in love tonight  
She's reachin' for someone and I know what he feels like  
Right about now, right about now, right about now  
I know I'm right about now, right about now She's makin' plans, getting' on with her life  
Makin' up for a lot of lost time She looks like a woman who's lost in love tonight  
She's reachin' for someone and I know what he feels like  
Yea I know what she feels like Right about now, right about now, right about now  
I know I'm right about now, right about now, right about now  
I hate I'm right about now, right about now, right about now  
Right about now
