

# Solace

## Within the Ruins

The luster is now gone  
I know where I belong  
A vagabond by nature  
A life only I can endure I find solace, I find peace  
I find peace in the unforeseen  
And now my satisfaction is achieved Welcome filth, accept uncertainty  
Comfort in knowing, I am not alone  
Passion is shared, hardships endured  
Learn from this, and fucking grow Grow Live, eat, breathe, bleed  
Striving to reach the peak  
Sweat, grind, break, bleed  
Satisfaction achieved I find solace, I find peace  
I find peace in the unforeseen  
And now my satisfaction is achieved This is a statement  
To always try  
This is a statement  
To never die  
Now I boldly say I can never die! Live, eat, breathe, bleed  
Striving to reach the peak  
Sweat, grind, break, bleed  
Satisfaction achieved Fuck the impending  
The condescending  
This is what I live by  
A testament to always try  
Defy, defy, defy, defy I can never die! (In background)  
Never die!  
Always strive!  
Never deny!  
I was built to survive!
